

Student Management System Project Report

Group Members: Bilal Ahmer(K190198), Hassan Khan(K190318), Ammar Alam (K190155)

OUR OBJECTIVE:

The main objective of this system is to automate the existing system of manually maintain the records of the Students to be computerized. So, there is a great login system for teacher and student separate. Student can view their information and transcript and teacher can add and edit marks and detail of students computerized so it will be a more refined and quicker process.

OUR USERS:

This application can be used by any educational Institute especially college and high schools' teachers and students to automate the process of manually maintaining the records of students.

POSITIVE OUTCOMES:

It is seen that there is no loss of student record and teachers don't waste time to edit and maintain records. It is preferred in colleges and high schools.

OUTPUT SCREENSHOTS:
